Senate Hears Law School Bill Thursday

Discrimination Plan Is Under Discussion

(For Text of Bill, See Page 1)

THE HEARING on Senate Bill 1610, "To prevent discrimination against graduates of certain schools and those acquiring their legal education in law offices," was expected to draw a large audience of Law School students next Thursday at 10:30 a.m. in Room 249, Senate Office Building.

The Student Bar Association last week mailed letters to all its members informing them of the contents of the bill and urging them to communicate with members of the Committee on Civil Service to which the bill has been referred.

At Kane, chairman of the Junior Section of the D. C. Bar Association, said that his organization would be represented at the hearing.

"The words 'Be It Enacted' will not make unapproved law schools as good as approved law schools."

WILLIAM C. VAN VLECK,
Dean of the Law School

Van Vleck Discusses Senate Bill

DR. WILLIAM C. VAN VLECK, Dean of the Law School, announced his intention of appearing at the hearing of Senate Bill 1610 and, in a statement to The Hatchet, termed the bill "an attempt to secure by legislative enactment an equality among law schools which does not exist."

"The word 'Be It Enacted' will not make unapproved law schools as good as approved law schools," he said.

His complete statement follows: "This bill as I read it forbids any Government officer appointing to a legal position in the Government service from selecting any one candidate among those available, because of the quality of his general and legal education. It provides that in making appointments no officer shall discriminate against an applicant."

(See "Van Vleck," Page 3)

No Auditorium This Year, Says Merry

CONSTRUCTION of the Lister Auditorium will not be started this year, The Hatchet learned late last week from Charles E. Merry, assistant to the comptroller.

The University postponed plans to begin work on this building, which had generally been expected to be the next one built, following a recent action taken by the Board of Trustees of the Abram Lister estate.

The trustees of the estate, in this action, extended the deadline for the start of work on the auditorium from 1940 to the summer of 1945. The University applied for this extension because the original terms of the will which had bequeathed \$750,000 only if the school began construction by 1940, had proved an obstacle in the acquisition of land for a building site.

The possibility exists today, because of the extension of the deadline, that the auditorium will not be started for five years. It was pointed out, however, that the University is free to begin work anytime within the five years.

Everett Is Buff 'n Blue Guest Star

(See Picture, Society Page)

LEE EVERETT, NBC radio announcer, will act as master of ceremonies for the second and last Buff and Blue Room of the year Friday night, Joe Bob Gale and Marian Swan, Student Council co-directors, announced last week.

Everett, who has proven to be the most popular M.C. in Buff and Blue history, according to Gale, will officiate from 9-12 in the Student Club this Friday.

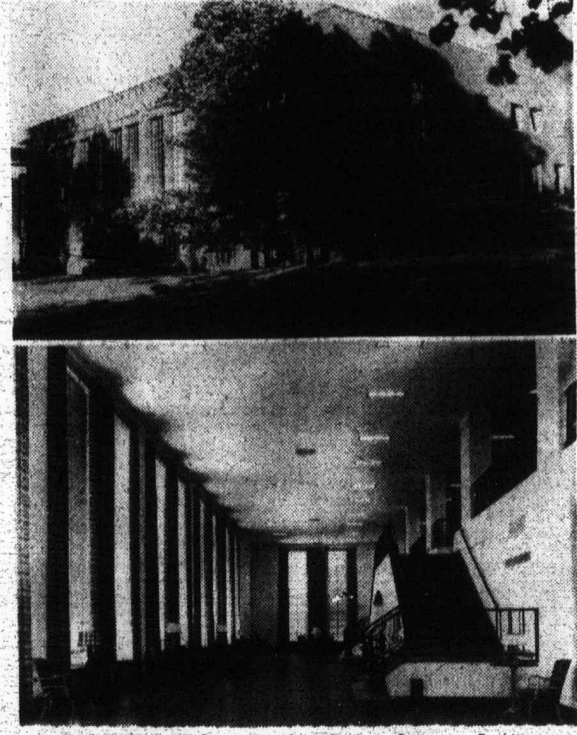

Virginia Barry of the Virginia Barry Dancing School will do several tap and tango numbers. Miss Barry instructed the candidates for University Sweetheart last year when the Homecoming Rally was held at the Capitol Theater.

Of interest to Student Council election enthusiasts, the first election returns will be announced during the evening.

Other entertainers include Grant Sherk, who will sing "Our Love," Betty Burnett, who will play Italian medleys on her accordion, and George Bishop, who will render several popular numbers on the piano.

Betty Chandler and his orchestra, with a hot trumpeter whose specialty is his "Shadrack" number and a pretty vocalist, will provide the rhythms for dancers.

Things To Come—If You Vote

ABOVE ARE TWO views of the Student Commons Building at the University of Kentucky at Lexington, Ky. The building, finished last spring, is similar in many respects to that which has been proposed for this campus. The students at Kentucky, feeling the need for the building, started on their own to raise the money. When they had convinced their Administration of their seriousness, by raising \$15,000, the University went ahead and started building.

Students at this University will have an opportunity to convince the Administration of their desire to have a centralizing influence for activities, by going out and voting on the referendum which will be held concurrently with the general campus elections Thursday and Friday.

The proposed building will contain a cooperative book store, a soda fountain for light lunches, a main dining room, private dining rooms, a faculty dining room, a ballroom, three lounges and reading rooms, for men, women and faculty, meeting rooms for campus activities, Hatchet offices, Cherry Tree offices, Student Council office, Alumni office, and other activity offices, a reception room, and a recreation room.

Electorate Will Vote This Week

Activity Books Will Be Required

THE ELECTORATE of the student body will turn out (en masse, the politicians hope) Thursday and Friday, to exercise their right, privilege, prerogative, and duty—to vote.

When they enter the privacy of the voting machines, they will be faced by a ballot containing 15 names and a referendum. Of the 15 they will select eight to head next year's student government. On the referendum, they will signify whether or not they care to have a Student Commons building on the campus.

If they are seniors, they will emerge from the machine, and signify by ballot their choice of three out of six candidates for senior

Elections

WHAT: Eight Student Council officers, elected at large; three Senior Class officers, and a referendum on sentiment for a student commons building for the University.

WHEN: Thursday and Friday. Polls in Government, Building D, Building C, and Stockton Hall will be open from 8:45 a.m. until 12:30 p.m. and from 4:30 p.m. until 7:30 p.m. Polls in the Medical School will be open only in the morning.

WHERE: For Student Council officers and student commons building referendum—voting machines will be in operation in the Hall of Government, Building D and Stockton Hall. A ballot box will be installed in the Medical School building. For Senior Class Officers—a ballot box will be installed in Building C.

VOTERS: For Student Council officers and student commons building referendum—any student registered in any of the schools or divisions of the University, including the Law and Medical Schools. For Senior Class Officers—any student who will receive a bachelor's degree in June.

CANDIDATES: STUDENT COUNCIL: President—John Daugherty (S); George Fughe (S); Program Director—Elsie Carper (I); John Sullivan (S); Student Comptroller—John Breckinridge (S); Leonard Wilson (I); Forum Director—Eugene M. Lerner (I); Irwin Nathanson (S); Advocate—Dick McDonald (S); Charles Corker (I); Publicity Director—Phil Young (I); Elwood Davis (S); Intramurals Director—Don Rush (S); Art Nowaskey (I); Secretary-Treasurer—Alice Miller (S) (unopposed).

Hutton Talks To Acheson's Class Tonight

GRAHAM HUTTON, author of "Survey After Munich," and a former assistant editor of the London Economist, will speak to Dr. Edward C. Acheson's economics geography class tonight in Gov-202 at 6:10 o'clock.

His topic will be "The Eastern Mediterranean and the Economic Significance of the Suez Canal."

Though the speech was announced as being not open to people outside of Dr. Acheson's class, there is room for a few outsiders. Dr. Acheson advised students today to inquire in writing and attach a recommendation from one of their professors.

Hutton, who has written for numerous periodicals, is one of the few European journalists who can number among their friends such prominent contemporary historical figures as Czechoslovakia's former president, Edward Benes, Winston Churchill, noted English statesman, and Norman Thomas.

He is considered by many as one of the truly brilliant economists in the world today, having written extensively on European economics.

His writings have appeared in several American publications, including the New York Times, the Christian Science Monitor, and the Atlantic Monthly.

Girls Pay Bill On Sadie Hawkins Day

"THIS IS AN opportunity for everyone at the University to have an evening's fun," said Marie McNeese, chairman, speaking of the Sadie Hawkins Day dance planned for Friday, May 5, by Pi Delta Epsilon, honorary journalistic fraternity.

With the admission only 10 cents, drag or stag, the dance will be within the pocketbook of all. Miss McNeese stated, adding that the dance will be held in the Student Club after the Cue and Curtain play, and Pi Delta initiation (probably 10 p.m.), that evening, and will continue until 12:30 a.m. A local orchestra will provide music for the dancers.

Several girls have already been invited to bring their campus leader boy friends to the dance, and Strong Hall girls have been invited to come drag or stag. Miss McNeese announced. Girls should not be afraid to come stag, she added, for there will be a lot of other girl stags, including the Pi Delta Epsilon girls.

Decidedly different, the dance will conform to the "Sadie Hawkins Day" comic strip custom—it will be the girls' night to escort their dates to the dance. Each girl will pay her own and her date's admission to the dance. Refreshments, too, will only be sold to the girls at the dance.

As a further contradiction to tradition, the girls will do all the cutting during the evening. No boy stags will be admitted to the dance.

Raymond Unwin Speaks On U. S. Housing

A SELECT AUDIENCE will hear Sir Raymond Unwin, famous English authority on housing problems, speak on "The American Housing Problem and Its Remedy" next Tuesday at 8 p.m. in Gov. 202.

Only 100 invitations will be issued by Prof. Edward C. Acheson, of the University economics department, who is in charge of arrangements. Of these, a very small number will be distributed to students.

Students particularly interested in housing should communicate with Professor Acheson immediately should they like to attend.

Sir Raymond, who was educated at Oxford and the University of Prague, is chief advisor for the Greater London Regional Planning Committee. He has been chief technical advisor to the Ministry of Health in England, and during the World War was director of the housing branch of the Ministry of Munitions.

Having made a study of American housing, he is completely familiar with the American scene, and has often advised the United States Housing Authority.

Presented under the auspices of the University, Sir Raymond is a close friend of its president, Dr. Cloyd H. Marvin.

Invitations to the lecture have been sent to representatives of the United States Housing Authority, the Federal Housing Administration, the American Institute of Architects, the Alley Dwelling Authority, and the Washington Housing Association.

Honor Group Initiates 14 Freshmen

FOURTEEN STUDENTS, were initiated into Phi Eta Sigma, freshman honorary fraternity for men, at 7 p.m. in Columbian House last night. They are: Ernest Bagd, James Caruth, Allen Coleman, Sydney Cox, Facius Davis, Raymond Litovitz, Roy Lowry, Paul McClellan, Robert Morrison, Walter Myskowski, John Philippsen, Sydney Swiller, Salvatore Tesoriero, and William Zeller.

The students initiated had maintained an average of 3.5 or better in their semester or first year of work.

President Cloyd H. Marvin, Dean Henry Gratian Doyle, Acting Dean Nathaniel Wrenn, Prof. Henry G. Roberts, and Prof. Wood Gray were honor guests at the banquet in the Faculty Club, which followed the initiation.

The initiation ceremonies were conducted at 7 p.m. in Columbian House by Eugene Allen, Carter Bowen, Ira Brown, and John Farrell, officers of the honor fraternity.

Prof. Wood Gray presided as toastmaster at the banquet, which followed, and introduced the guests of the evening.

Debate Cup Attracts 24 Entries

TEAMS representing twenty-three Greek letter organizations and an entry by the Colonial Campus Club will compete for the Delta Sigma Rho debate cup May 5 in the Hall of Government. The question for debate between each of the twelve pairs of contestants will be "Resolved, That the Patman anti-chain store tax should be enacted into law."

Christian Bromberg has been appointed intramural debate manager, the first time that an undergraduate manager has been appointed to this position.

Following is a schedule of rules governing the debating entries: All teams, judges and chairmen are to meet in Gov. 101 at 8:10 p.m., May 5. Following assignments of (See "Debate," Page 3)

Two Alumni Are Awarded Fellowships

TWO FORMER University students have recently been honored by outstanding institutions by being awarded fellowships.

Marshall Clagett, A.B. 1937, and M.A. 1938, has been awarded a traveling fellowship by Columbia University for the coming year. Clagett has been studying for the past two years for his Ph.D. at Columbia University, and has served as assistant to Prof. Lynn Thorndike. He will leave for Paris next month, when the fellowship goes into effect.

Robert Golden, M.D. 1937, has been appointed to the famous Mayo Clinic as a surgical fellow, starting July 1, 1939. The University graduate has received this honor in many years.

Dr. Golden is now attending night classes to obtain his A.B. in June, and at the same time he is holding a hospital appointment at the University Hospital.

Service Announces Candidates

WITH HOPES OF SWEEPING into power for the 3rd consecutive year in the Student Council elections Thursday, the Service party offers the following candidates:

John Daugherty, president; John Breckinridge, comptroller; Alice Miller, secretary-treasurer; Elwood Davis, publicity director; Richard McDonald, advocate; John Sullivan, program director; Don Rush, intramurals director; Irwin Nathanson, public forum director; Senior class officers: Betty Yates, president; Roy Lever, vice president; and Esther Yanovsky, secretary.

Daugherty's qualifications are editor of The Hatchet, former president of Phi Sigma Kappa, one of 19 students named this year to appear in Who's Who in American Colleges, member of Omicron Delta Kappa, Pi Delta Epsilon, Gate and (See "Service," Page 3)

Independents Announce Platform

A PLATFORM drawn up by the candidates running for Student Council offices on the Independent Voters' League ticket, headed by George Fughe, was announced Saturday.

The candidates are George Fughe, President; Elsie Carper, Program Director; Leonard Wilson, Student Comptroller; Eugene M. Lerner, Forum Director; Charles Corker, Advocate; Phil Young, Publicity Director; Art Nowaskey, Intramurals Director.

In commenting upon the election, Fughe said: "The students on this campus are mature enough to know that with every 'fight' there is a 'duty.' We have the right to vote. We should make it our duty to exercise this right intelligently."

Fughe's activities on the campus (See "Independents," Page 3)

"Winterset," Play, Deals With Despair

THE DEPTHS to which human life can sink is the theme of the forthcoming Cue and Curtain production, "Winterset," by Maxwell Anderson, to be presented in the University gymnasium May 5 and 6.

With the main scene of the play beneath the dark severity of one of the great towers of approach to the Brooklyn Bridge, the day begins one early December morning for a small world of men and women, some without a name, who hide from cold, or from the law, or from (See "Winterset," Page 3)

Students Form Committee To Aid Refugees

UNIVERSITY STUDENTS moved last week to make their defense of freedom more than academic as announcement was made of a project to establish five full-tuition and full-expense scholarships for refugee students from Central Europe.

The project was developed by members of 20 campus organizations and referred to the University through the Committee on Loans and Scholarships on March 30.

President Marvin has indicated his willingness to bring the matter before an early meeting of the Board of Trustees. Bob Geran, temporary committee chairman, said Sunday.

The student committee will meet Friday at 7:30 p.m. in Government 200 to discuss next steps in preparing its project for review by the Board of Trustees. Any student is eligible to attend the meeting and work with the committee, it was announced.

"Hutch" Holmes Pitches Second No-Hit Game

JOHN "NO-HIT" VANDER MEER, Cincinnati Reds southpaw hurler, has nothing on Wendell "Hutch" Holmes, Sigma Chi pitcher, who pitched his second successive no-hit, no-run game Sunday morning against Sigma Phi Epsilon in an interfraternity league game. The score for the seven inning game was 11-0.

Showing remarkable control, "Hutch" mixed up a blazing fast ball with a change of pace and a bewildering curve that had the Sig Ep batters going down swinging. Holmes had 16 strikeouts, walked only two batters, one of which advanced as far as third base in the fifth inning, and singled himself for one of the nine Sigma Chi base hits. Details on sport page.

World War Gas Warning Was Devised by Bartsch

By Sydney Swiller

COUNTLESS thousands of soldiers who survived the World War can thank Dr. Paul Bartsch, professor of zoology, that they are alive today, because it was he who found a means for detecting first traces of mustard gas so that the soldiers could be warned in time to put on their gas masks for protection.

Use of mustard gas by the Germans came as a complete surprise to the Allied Forces, and its disastrous effects stirred up quite a problem. The gas was odorless, Dr. Bartsch explained, and soldiers were found to be breathing it before they could be notified to don their masks.

Mustard gas, used in the chemical warfare, combined chemically with the moisture in the lungs and formed hydrochloric acid. The acid then ate into the membranes and caused pneumonia and other serious ailments. The gas also attacked any part of the skin to which the

"Catherine", 8-years Old, Acts as Ideal Art Model

Water Color by
Frances E. C. Campbell

"When the hounds of spring are on winter's traces" the art students are wont to forsake the art department studios and paint outdoors. Such was the case last Saturday when the warm weather drew eight of them with paint, pencils and brushes to the alley in back of the art school.

Catherine, was the little girl's name, and she lived "somewhere in back." Eight years old and in the third grade of public school, she is a very demure tot with long, curly, golden-brown hair, parted in the middle and held in place by a multi-colored kerchief, all framing a very doll-like face. All this and a wealth of patience made her an ideal model.

She sat very calm and still on a pile of boards in back of one of the many garages which so characterize that alley, while the students sketched and painted her from every angle. Flocks of neighborhood children appeared as

Your Vote

(Continued from Page 1)

of their aloofness. Praemonitus, praemonitus (the Latins had a word for it)—or, forewarned, forearmed.

As a matter of fact, entirely aside from the Commons project, student government here is beginning to achieve a "pocketbook importance" which students ought to watch more closely. The power has not been fully exercised yet—but the Council which will be elected Thursday and Friday, will have a budget to prepare—a budget which will involve some \$10,000 of your money. What would you like to have that \$10,000 spent for? What kind of men would you like to have spend it?

Your vote will have a significant influence upon the Council—and if your money is thrown away or spent for something you do not want—it's your fault. It won't do any good to squawk later.

And so, if you are registered for any degree in this University, it is to your own self-interest to go out and vote on Thursday and Friday—or pay—out of your hard-earned government salary or your allowance.

Is that worth five minutes of your time?

— F. F. B.

Commons Building and Student Life

I Support the Project

There are several reasons why we believe you, as a student in our University community, should support the project for a student commons building. In general, all these arguments boil down to this: a commons building will encourage more student life—more community life outside the classroom.

Of course, it needs some argument to prove that such encouragement is itself worthwhile. We shall present those arguments as they appear to us—and speakers from the Student Council undoubtedly will reach with you with similar arguments. We hope you will listen to discussion of the project, and be led to support the plan, for we are convinced this is one of the best undertakings ever ventured by our student government.

II

Value of Extra-curricular Life

It should be taken almost as axiomatic that students get as much out of extra-curricular life as they do out of their academic work. Learning to live is not solely a matter of accumulating semester hours in engineering, English, or Greek. Living is not a science, but an art that must be practiced. The science must be learned, and then put to work.

The University in many ways has encouraged that point of view, and urged its practice. For example, in public speaking. Now there are textbooks in public speaking, where scientific principles are laid down—principles based on practical experience. But a student of public speaking must speak in public before he will know anything about his subject.

In this particular study, the University has encouraged students to take part in the activities of the Forensics Council—in intercollegiate debate, intramural debate, etc. More active students have gone into the Student Congress, the Speakers Bureau, and other groups where they get more practical experience.

That is one phase of the value of extra-curricular life—in increased practice of the art contained in classroom study.
(See "Commons Building," Page 6)

Partisan Elections Committee

The Student Council's elections committee—which will presumably try to hold a fair election—has made itself subject to severe criticism, not to say a complete lack of faith, by retaining in its membership one of the party's candidates for a political office.

Not only is that person a candidate for office under rules which the committee will set up, but this member is one of the most rabidly partisan members ever to sit on any committee. It was largely through the intervention of this member that the committee—by a strictly partisan vote of two to one—threw out several candidates of the opposing party.

These disqualifications, of course, were taken before the Student Life Committee, and all the candidates except one were restored. Which indicates the measure of the partisanship exhibited in attempting to disqualify four persons.

It seems also inescapable that, when a responsible person asked SLC to remove that partisan from the elections committee, SLC ought to have considered the matter and issued a ruling. Instead, the committee was allowed to stand.

The constitution may not say that no candidate may serve on the elections committee—if SLC wants to stand on the letter of the law—but certainly it is a generally recognized principle that no person shall vote or pass on his own election.

If the committee does not act on its own accord to remove this partisan member, then SLC ought, at the earliest possible moment, to remove this person in order that a more general confidence may be felt in the proceedings and rulings of the committee.

Cryptic Comment

By Ward & Freddie

How the Other Half Lives
... Who's Who and Who
Isn't ... and Why ...

• PAN-HELLENIC brought forth several very interesting techniques. Wilbur Case thought he had a date for the dance with Doris Black, but when an old flame of hers decided to fly down from New York for the week-end, Wilbur Porteus had his mind changed and at the last report was brooding over the insincerity of the fair sex.

Virginia Lathrop seemed worried over just how dependable her date was. Every time he started to talk to a sorority sister of hers (and he seemed to have a yen for the girl), she walked over and unceremoniously "distracted" his attention. You know, sort of yanked him by the arm in a quiet way.

Now that the baseball season is here again ... a bird in the hand is worth two in the Bronx ... one of our brilliant seniors recently rushed a rich little girl ... his line was stale from going steady too long ... no hits, no runs, no helices ...

There were ten or twelve Kappa Sigs at the Interfrat, but they were scarce at the Pan-Hellenic ... Jim Jacobs, who sometimes dates my Jacobus, was seen at the SAE radio dance with Marce Robinson, Chloedream.

From "Kiss the Boys Goodbye," we hear a Southern Gentleman described as a man who can shoot like a South Carolinian, drink like a Virginian, ride like an Alabamian, make love like an Alabamian, and be as proud as an Episcopalian.

Which reminds us of the Derby last year. A gentleman nearby who was about three sheets in the wind took a long time to make up his mind on the winner, and finally settled on Fighting Fox, with Menow as a second choice. He went to the betting shed, but was too late, and as he left he observed that "This two-dollar bill is just as good as your ticket." He went back to the stands and when it was over asked if either of his choices had won. They told him Lawrin had won. So he tore up the two-dollar bill. ... Ever heard of a Kentucky
(Continued on Page 4)

Where Is Congress Leadership?

A very lamentable and disturbing statement is being circulated by various members and former members of the Congress. It is to the effect that that organization is on the way to disintegration. This comes as a surprise but not as a shock to those who have watched the workings of the student debating group this year.

There has been a periodic lack of interest by many of its members since September; committees have not functioned as well as they could have if leaders had taken hold of their jobs with more aggressiveness and interest.

Politics have lent no encouragement to the betterment of the Congress. It is not forgotten how several political groups herded their respective members into the deliberative party chambers and voted for officers without due regard to merit; neither are the many bits of other chicanery forgotten by observers on the campus.

Yet, even in the face of this record, it is not too late to build back up.

This was demonstrated earlier in the year.

The first legislative session saw members pass a section of a minority bill, without considering the majority report, then table the entire bill.

It was a bad start for an organization that had just taken on a new name with the hope of winning new supporters.

As a result of the leadership's failure to outline a clear, parliamentary method of procedure, Congress literally lost control of itself during the first meeting. From the record it is learned that as many as 25 members were trying to make motions at the same time.

By last January, however, the situation changed.

A set of comprehensive rules were drawn up, and at the meeting just before the close of the semester, an orderly procedure was followed.

Student support and interest seemed regained.

The meeting was as similar to the opening one as a jitterbug affair is to a Blue Danube dance.

Debate went along in order, members spoke their various viewpoints, and votes were taken to get the majority opinion. It appeared that the group had found a new lease on life. The future looked much brighter.

Now, three months later, things have changed. Some members have said they are through, others have expressed their intention of resigning, the oratorical contest was poorly attended by party members, and there seems to be a general let-down of the Congress as a whole.

This is deplorable, and certainly calls for action on the part of the Executive Council. The Executive Council ought to find out what is wrong while there is plenty of time to check the trouble.

There is still time to act.

— C. E. W.

Calling All "Liberals"

We wonder what's become of our most "faithful readers"—the "Liberal Students"?

They used to write the most entertaining letters for this page; we got a kick out of them, while not—always—agreeing with their views. Life is so much duller without intellectual windmills to be slain.

Won't you, dear armchair pinks, come back to us?

And that brings up the general subject of "Letters to the Editor." It's an old custom, and we'd like to encourage it. Like all old customs, this one has some governing rules:

First, all letters must be signed. It will be our general policy never to refuse publication of any signed communication. If reference is made to a group or an individual, we will necessarily publish the signature. Otherwise, nom de plumes will be used if requested. But in all cases the name and address of the writer must be known to the editor.

Second, there must be no personal attacks on individuals. That is strictly forbidden by the University activity rules. Letters may condemn an individual's acts, policies, or statements—within the liberal laws—and we shall be glad to print them. But keep it clean.

Third, letters must be restricted by the writers to 250 words; otherwise, writers must take their chances on our condensations.

— F. F. B.

ENGINEERS

By Charles G. Kurz

• CONTRARY to opinion in some quarters, this column does not guarantee to represent the solid opinion of the Engineering School. What we strive to do is to keep our finger on the pulse of the engineering groups and to illustrate the drama, pathos, hopes and better anecdotes that show the cross section of our fellows. We also strive to make suggestions that will unify our group with the University.

In line with actions which we feel should take place, it is our suggestion that the Student Council or the Student Life Committee reclassify the engineering societies into a new group, possibly called the "professional group," and to take in representatives of those groups who are also classified as professional, such as the chemists, physicists and others of a professional or semi-professional status. These groups are entitled to representation on the Council although they are no longer classed with the departmental groups. While they have affiliated themselves with national professional organizations it is only because they are striving to gain recognition for their members upon graduation. Therefore, in all fairness to students in these professional groups the new classification should be formed entitling them to a vote on the Student Council.

• THE ANNUAL ENGINEERS' BANQUET is generally regarded as an engineers' idea of a good time. The banquet this year will feature an outstanding engineer as principal speaker when good engineers get together with good food and good stories. The Eleventh Annual Engineers' Banquet will be held at the Colonial Hotel on May 6 at 6 p.m. Tickets will be sold by members of the Engineers' Council for \$1.50 each.

• THETA TAU will meet this Wednesday in D-204 at 7 p.m. "Pop" McKnight, dean of engineering students, member of Sigma Tau, mechanical engineer, and Senior Marine Engineer of the Navy Department, has just been pledged by Theta Tau.

• WE REGRET to report that Russell Carr, member of Theta Tau, is seriously ill.

• DEAN APHAM'S class in Materials of Construction will visit the Baltimore Copper Works and the Sparrow's Point Steel Plant of Bethlehem Steel Corporation next Friday, April 28. Anyone interested in attending should notify the dean as soon as possible.

LETTERS To The EDITOR

To the Editor of The Hatchet:

To clear up any possible misunderstanding about the position of the Magna Carta Club last week on the so-called "Peace Strike," this declaration of policy is being published.

Magna Carta has gone on record favoring the President's Peace Policy along with the following:

The Good Neighbor Policy of the New Deal.
The revision of the present neutrality law so as to punish the aggressor and aid the victims of war. In this respect we support the Thomas Amendment.

The call of President Roosevelt of April 15th asking Hitler and Mussolini to enter into a 10-year peace pact based on the discontinuance of aggression and accompanied by a conference for international disarmament.

The President's defense program. This is the only logical plan to adopt, when a curtailment of national defense would only be an invitation to aggression.

We cannot accept a blind policy of isolation as was called for in the "strike" last week. That program placed the blame of aggression and war on the present administration. The President was termed a "war monger" in the same manner as the Hitler press does.

We believe with the President that the only way to guarantee peace is to forestall a general war. His actions are in that direction, and we are convinced that his efforts are sincere and correct. I want the students to know that the Magna Carta Club is in no way connected with the attack on the administration of President Roosevelt.

This Thursday evening the Magna Carta Club is conducting an open peace rally in conjunction with "National Security Week" at 8 o'clock at Gov. 101. The distinguished labor leader, Len De Caux, will be the principal speaker. Everyone is invited to attend.

Nate Sklar,
For Magna Carta.

SIGHT and SOUND

At the Metropolitan

A provocative and revealing analysis of "The Nazi Way" is the short film, "Crisis," which describes the rape of Czechoslovakia by Hitler.

The gradual undermining of the political structure of the little republic, by means of skillful propaganda—"boring from within"—is shown in great detail. Portrayed are the dastardly activities of Henlein in destroying his own fatherland—acting as an agent for "his master," the German dictator.

It might do some of our over-enthusiastic democrats good to watch the spectacle of disloyal, traitorous natives operating to the destruction of their own land, all under the guise of freedom of speech.

It's a good lesson in the difference between liberty and license.
— F. F. B.

At the Earle

"I'm From Missouri," with the nation's top humorist, Bob Burns, putting over the gags.

The story is a little unlike his usual picture in that it goes from one gag to another rather than concentrating on a characterization by the hilariously master.

The plot involves a Missouri mule dealer who becomes a banker and with a socially ambitious wife runs the gamut of the clash between social levels.

The stage bill is of very superior quality. Vincent Lopez, superb pianist and accomplished showman, heads a list of good specialists. Patricia Ellis is as lovely off the screen as on. Danny Drayson's top tap dancing and other good acts complete the bill.
— W. M. C.

At the Palace

Sam Goldwyn, yes, Sam Goldwyn, has betrayed the Great Middle Class. He has shown its members that they have not the capacity for love, true love, the burning, sweeping gale of flame. He has proven that La Rochefoucauld was right when he said, "If no one had learned to read, very few people would be in love." The picture "Wuthering Heights," playing at the Palace this week, shows love. This word—love—has come to signify a type of celluloid ailment, something that has to do with kissing, quarreling, making-up, getting married, and that sort of thing; it happens to Tyrone and Sonja and you and you and ... only in movies it's more romantic-like. In "Wuthering Heights" there is love, a titanic, moving force, a cosmic passion. The air above the audience hangs stifling, crackling with well-earned emotion.

The ad copy writers can say anything they want about this picture.

ON SECOND THOUGHT

ELECTIONS CONFRONT VOTERS AGAIN;
AN ANALYSIS OF STATEMENTS AND THE
CAMPAIGN UP TO NOW

By Charles Earl Wallace

• STUDENT COUNCIL elections again confront campus voters. There has been a noticeable lack of fanfare and color so far in the race. Nominees were only announced last week, and the vote will come this week.

This is in marked contrast to elections of the past. Until this year candidates were always announced further in advance. Even last year there were more indications that a political campaign was going on than we have seen so far in the present "bottle."

It has been the hope of this writer to attempt an analysis of the platform on both sides, but there seems little to analyze. Neither party has said very much.

The Service Side

Both presidential nominees, however, made a few statements in

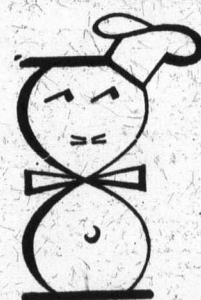

Confidentially

By Robert Linehan

• I THINK that everybody ought to get out and vote in the forthcoming Student Council elections. If only the "machine vote" turns out, as has been the practice for the last few years, we will continue to have machine politics. Not until there is a definite class of students, interested in student government, and willing to take the trouble to vote will the machines leave the campus. This year I believe that students should split their vote and not back the straight party tickets. There are excellent candidates on each slate who I believe to be better suited to leadership than their opponents. I would like to see the best from each slate elected.

• The attention of all law students or prospective law students is invited to the letter from Dean Van Vleck printed elsewhere in this issue. Apparently an attempt has been made by some of the District law schools to force through the Congress a bill which would be very detrimental to our law school and other first-class law schools throughout the country. The student bar association is up in arms over the affair and prompt action is necessary to defeat this piece of legislation. We will have a clearer understanding of this problem after the open hearings which will be held by the Senate subcommittee Thursday.

• I think that this University should have a "commons building." I believe it would go a long way toward establishing a definite school spirit here. The Hatchet as a matter of policy has continually conducted campaigns to increase this spirit but has not been entirely successful. Perhaps the "commons building" would fill the prescription perfectly. Whether the student body as a whole would favor paying \$2 more per semester in order to finance this building is a moot question. Possibly the referendum on the subject this week will give us a clue as to the feasibility of this plan.

Tuesday's paper which may be worth looking into. My editorial colleague, John Daugherty, who has managed through his associations and ability to obtain a few of the more select offices in campus life, said:

"If elected, I pledge myself to continue my policies toward a better and fuller activity program for all University students."

Now just what does this mean? Every voter should ask what have been Daugherty's policies toward "a better and fuller activity program."

Every voter should demand to know to what extent he hopes to go in a continuation of his policies. After all, the words "better" and "fuller" were doubtless used in a adjectival sense and must necessarily carry with them explanations.

In national politics, both major parties make similar pledges in speeches which amount to nothing but sheer ballyhoo.

New Deal Democrats believe the NLRB leads to a "better and fuller" life. On the other side, Old Guard Republicans and conservative Democrats say the NLRB is a virtual abomination and should be abolished.

"I shall endeavor to cooperate with all groups and activities on the campus so that the full benefits of this University may be made available to all," Daugherty further said.

Haven't the "full benefits" of this University been available to all before now? If now, the present Council and the University itself have been functioning with an inexplicable lack of efficiency.

The tentative Service platform, according to The Hatchet, as announced by Party Chairman Jay Samuel, include the following provisions:

A cooperative book store, cooperative in its entirety; a sincere attempt to obtain more harmonious relations between activities, students, and the administration; increased financial aid to Cue and Curtains; in favor of a student commons building; a more enlarged and inclusive co-op book; more emphasis on educational forums, and symphonic concerts; and blue books either free or at reduced cost to the students.

Let us see if these tangled statements can be clearly analyzed and each component involved isolated for inspection. In that manner we may reach a clearer comprehension of the meaning intended.

A cooperative book store, the platform states, cooperative in its entirety. Think of what this undertaking would involve. Without the Administration's financial aid

HIKE and BIKE
SAIL and SWIM
at low cost in
Gay GERMANY

You'll be surprised at how little it takes to get around in Germany! Go this summer. Meet and rub elbows with the happy, informal groups of nature loving fellow-students in eager quest of ever glamorous scenic beauty.

Knowledge fills you as you hike, bike or fallboat to the great enduring landmarks of Germany's age-old art and culture.

Visit historic cities—heralded Heidelberg, glamorous Berlin, Wagner's Bayreuth, sublime Beethoven's Bonn, great Goethe's Frankfurt-on-Main, the lovely Rhine-kissed Koblenz, melodious mythical Vienna hallowed by the immortal spirits of Mozart, Strauss and sweet, lyrical Schubert.

At night, after zealous eventful days, relax in the truly inexpensive, restful quarters awaiting you at modest-priced hotels, or at one of the 2,000 intelligently planned Youth Hostels. Here travel-loving groups win and welcome you into the composite charm of folk songs, country dances, tales from legend lore and sincere, simple friendships.

CIO Leader Will Address Magna Carta

LEN DE CAUX, publicity director of the Congress of Industrial Organizations and editor of the C. I. O. News will be guest speaker at the Magna Carta Rally Thursday night, at 8 o'clock in Gov.-101. The meeting will be devoted to a discussion of the foreign policy of President Roosevelt. Also under discussion will be the current Neutrality Act.

"In direct contrast to the supposed 'peace strike' held last week by isolationist enthusiasts, who went so far as to condemn the good neighbor policy of President Roosevelt, and ask for the application of neutrality law to the Sino-Japanese situation which if applied would cause the immediate downfall of China, Magna Carta favors collective action by democratic nations to check aggressor groups," said Nate Sklar, Magna Carta member. Len De Caux, who will speak on "The Position of the C.I.O. in Regard to Foreign Policy," will discuss the President's peace policy, as adopted at the last convention of the C.I.O.

There will also be a student speaker. Questions will follow the speeches. The meeting is open.

A.K. Psi Elects Joe Findlay President

JOE FINDLAY was elected president of Alpha Kappa Psi, professional commerce fraternity, at its meeting last week. Other officers elected for the coming year include William C. Laxton, vice-president; Fred Hanscom, treasurer; H. Gardner Talmadge, secretary; and James E. Rice, Jr., master of rituals.

Willis O. Davis was formally pledged. Speaking on "The Natural Year," Dr. Ralph D. Kennedy, associate professor of business administration and accounting at the University, demonstrated why the business year, ending June 30, would be a more feasible time for the closing of the accounting systems of business firms than the calendar year, ending December 31.

In the period around June 30, Dr. Kennedy said, inventories are at their lowest point; accounts receivable are correspondingly low, and cash on hand is at its highest ebb, all indications that this period would be a better time for closing the year. As a proof of the desirability of this change, The American Institute of Accountants has already endorsed this plan, and several large firms plan to adopt it.

Prof. Dress Talks To W. Va. Teachers

PROF. MITCHELL DRESE of the Department of Psychology addressed the Classroom Teachers Association of West Virginia at their Spring meeting in Charleston, Saturday, on the subject "The Role of the Classroom Teacher in Guidance."

During the past year, Professor Drese has served as Chairman of the Public Actions Committee of the District of Columbia Coordinating Guidance Council which has drafted a program of guidance for the District of Columbia Public Schools.

Dr. Winslow Speaks At Medical Seminar

DR. C. E. A. WINSLOW, professor of public health in the Yale University medical school, spoke on the early phases of bacterial culture cycle, at a special seminar held by the department of bacteriology, hygiene, and preventive medicine, at the University yesterday.

"Catherine"

(Continued from Page 1)
if from this air, posed and flaunted, but Catherine outdid them all by being her own natural, demure self.

Such was the moment in a little girl's life; such is the life of an art student.

Debate

(Continued from Page 1)
judges and chairmen the debaters will proceed to individual rounds.

Any team not ready to debate ten minutes after the scheduled time will automatically forfeit the debate. None will be postponed. For this reason it is suggested that alternates be chosen.

Each debate will have a single critic judge. The ability of the organization to organize and discover original arguments will be a main consideration in the judging.

Each organization must use a team of two active members, pledges recognized as active, who will be eligible to compete in student activities. No student who has participated either at George Washington or elsewhere in an intercollegiate debate is eligible.

Each team should prepare to debate both sides of the question, as the present assignment of sides holds only for the first round of debates. Each side will be allowed two constructive and two rebuttal speeches, the constructive to be ten minutes in length and the rebuttal five.

A bibliography on the question, together with some additional material, will be on reserve in the Social Science Library.

The first round of side and opponent assignments is as follows:
FRATERNITIES: Alpha Delta Theta, Sigma Chi, Phi Sigma Kappa, Kappa Alpha, Theta Delta Chi, Epsilon.
SOCIETIES: Alpha Delta Pi, Phi Beta Phi, Alpha Omega, Kappa Delta, Tau Kappa, Epsilon, Kappa Sigma, Sigma Nu.

Labor Leader

Bartsch

(Continued from Page 1)
vapor could penetrate. How could first traces of the gas be detected in sufficient time to warn the men to slip on their masks, was the question which officers assigned to chemical warfare in the Allied Armies were asking themselves. They searched everywhere for a solution to the problem, trying one thing and then another. Nothing proved satisfactory.

One day Dr. Bartsch was surprised by a visit from one of his friends, an officer assigned to the mustard gas problem, who was searching for a Mexican hairless dog. He had come to Dr. Bartsch in the hope that he could help him locate one. The officer explained that he had no idea as to whether or not the dog could serve as a gas detector, but since it was different from other dogs, the Army was anxious to try it out. However, the experiment proved to be a failure.

Somehow, Dr. Bartsch couldn't forget the problem, and the next day as he was thinking about it a sudden thought flashed through his mind.

"E. jingo," he exclaimed aloud, "why wouldn't my snails be the very thing? They have moist skins. They are covered with moisture which will combine with the gas. They should be fifty times as sensitive to it as a man is."

So the very next morning Dr. Bartsch and members of his staff were digging away in the garden in search of snails, the common garden slug variety. As soon as some were found, Dr. Bartsch hurried to the Chemical Warfare Service. Experiments showed that the slugs were extremely sensitive to mustard gas, showing its presence in a dilution of 1 part in 10,000,000 of air, while the danger point to man was 1 to 4,000,000.

Besides, the tests showed, the slugs were "slow creatures" and could quit breathing until they got into the fresh air again. They were additionally valuable because some of them could be used as many as twenty times. The slugs were found to be an ideal detector because they did not respond to commonplace gases.

Proof of their value resulted in the Allied Armies carrying them to the front in little wire cages. "Whenever the slugs would start to pour out a milky, protective secretion, the sirens would be sounded and soldiers would hurriedly don masks," Dr. Bartsch explained.

Prof. Dress Talks To W. Va. Teachers

PROF. MITCHELL DRESE of the Department of Psychology addressed the Classroom Teachers Association of West Virginia at their Spring meeting in Charleston, Saturday, on the subject "The Role of the Classroom Teacher in Guidance."

During the past year, Professor Drese has served as Chairman of the Public Actions Committee of the District of Columbia Coordinating Guidance Council which has drafted a program of guidance for the District of Columbia Public Schools.

Van Vleck

(Continued from Page 1)
cause he has not had college work or because he has not been to law school or because he has not been to an approved law school.

"It appears that if an appointing officer had under consideration two applicants about substantially equal in their personal equations, heredity, environment and experience, one of whom had college work and approval of law school work and the other had none of these advantages, the appointing officer would choose the one who had graduated from college and from an approved law school. To elect the one who had not graduated from college and from an approved law school because of those facts would be to discriminate against the other applicant because he had not graduated from college and from an approved law school."

"Any one who opposes this bill is not necessarily advocating the establishment by legislative enactment of a minimum standard for appointments to legal positions in the Government. It does not oppose the establishment of minimum standards. It proposes the establishment of maximum standards above which no one is permitted to go, and fixes this maximum standard at the lowest level in the U. S. for requirements for admission to the Bar. It does this, however, for all appointive positions in all departments, independent establishments and even government corporations throughout the whole United States."

"The adoption of the policies involved in this bill would be particularly unfortunate at this time. For about twenty years there has been in progress a steady movement upward in educational requirements for admission to the Bar. Forty states have either already put into effect two-year college admission requirement or have adopted this requirement prospectively. In the near future individuals and private corporations may be able to secure better prepared lawyers."

"The expansion of governmental activities into many new fields of life, makes it more necessary than ever that government lawyers have the best, more important that lawyers who have as their client the whole people should be better prepared than lawyers who represent individuals or private corporations. Serious study is being given to the problem of improving the lawyer personnel in the Federal Government. The President of the United States has appointed a special committee to study this and suggest standards. The passage of a bill of this kind would freeze at this time for all government departments the standards at the lowest level and as long it remained law would forbid improvement."

"At present there is as far as I know no general law passed by either Congress or the Civil Service Commission requiring graduation from an approved law school as a necessary prerequisite for making application for legal positions. In seeking the best men, however, appointing officers have considered general education and legal education. There has been a tendency especially in making appointments of those recently admitted to the Bar to prefer the applicant with the best general and legal education. I believe it has been said that most of the places have been filled by law review men from class A law schools. This would hardly be seriously contended that the selection of the men who have given evidence of the best industry and best brains and who have had the best training is unjust or un-American. It is no more unjust than to prefer an A student to a C student, other things being equal."

"This bill is an attempt to secure by legislative enactment an equality among law schools which does not exist. The words 'he enacted' will not make unapproved law schools as good as approved law schools. The legislation, however, is an attempt to make government officials treat them as if they were."

WILLIAM C. VAN VLECK.

Pi Lambda Theta Honors Ruediger Saturday Night

PI LAMBA THETA, honorary education fraternity to women, will honor Dr. William Carl Ruediger, retiring Dean of the School of Education, at their formal spring initiation Saturday.

As a testimony of the fraternity's appreciation of Dr. Ruediger's aid as its faculty adviser, a fund, to be known as the "Dr. Ruediger Lecture Fund," will be dedicated to him. This fund will be used to bring prominent speakers in education to the University.

James Harold Fox, present Dean of the School of Education, and Dr. Mitchell Dreese, professor of Educational Psychology, will speak in honor of Dr. Ruediger.

The new initiates to the fraternity will be Sally Marks, Mary Worthley, Mildred Wharton, and Mrs. Nannie Williams.

Electorate

(Continued from Page 1)
SENIOR CLASS

President-Betsy Yates and Barbara Harmon; Vice President-Marie McNeese and Roy Lever; Secretary-Everett Bellows and Esther Yansky.

REGULATIONS:

Among other election regulations are the following provisions: "Any person guilty of stuffing ballots, or attempting to do so, shall be suspended . . . and after Committee hearing his party shall be deprived of from 50 to 200 votes. . . . The phrase 'ballot stuffing' shall mean the casting of more than one vote by a person, or by any individual, presenting false identification material, any attempt to force one's way into the polls, or to cast more than one vote while at the polls, circulating or leaving out of the polls matter, or attempting to force anyone's vote in the restricted areas. . . . Any person guilty of destroying or disturbing the legitimately issued material of any other party."

Each of the two nights, after the polls have been closed, the elections committee of the Student Council will meet in solemn conclave to rule on whether anyone has been guilty of "ballot stuffing."

Friday night, in the midst of the gaiety of the Buff 'n Blue Room, in the Student Club, a hush will descend over the assembled throng, as the master of ceremonies rises, and introduces the chairman of the elections committee, who will read a list of names and numbers from a slip of paper—and the mad whirlwind of the political campaign will be over for another year.

Last week, the elections committee met to review the petitions and other eligibility papers of the various candidates. They challenged the matter to the faculty members of the Student Life Committee, who, according to the Student Council Constitution, have been delegated the power of ruling on the eligibility of candidates. Set Up Sub-committees

The Student Life Committee met Thursday, and rather than making rulings in the individual cases, set up two sub-committees to set before them only in the form of general principles of interpretation of the Student Council Constitution.

The two party chairmen, Joe Clouty of the Independent Voters' League, and Jay Samuel of the Service Party, and the chairman of the student life committee, Prof. DeWitt Bennett, acting ex-officio, served as the first sub-committee.

Their duty was to review the various candidates' qualifications. If they were in disagreement on a candidate's eligibility, and could phrase the problem in terms of a general principle, the second sub-committee, composed of the faculty members of the SLC would make a ruling. The final declaration of eligibility rested with the latter committee.

Alice Miller Unopposed

Before the first sub-committee met, the name of Miss Pauline Mossman, challenged candidate for secretary-treasurer, on the Independent slate, was withdrawn at her own request. Thus, Miss Alice Miller, on the Service slate, will go in unopposed. When the sub-committee met, the three other challenges were dismissed.

The faculty members of the Student Life Committee are Prof. Bennett, chairman, Mrs. Vinnie G. Barrows, Registrar Fred E. Nessell, Prof. Wood Gray, and Prof. John A. McIntire.

The elections committee was originally to have been composed of two members from each party, and the Advocate of the Student Council. Since the Advocate, George Pugh, was nominated for president of the Student Council by the Independent Voters' League, he divorced himself from all connection with the election, and appointed W. Criswell Gausmann, who was elections chairman in 1937, and again in 1938, to serve as chairman.

Since this left the membership of the committee at four, Gausmann suggested that a fifth impartial member be appointed, to break the ties in making decisions. He proposed Miss Barbara Harmon, who is now program director of the Council, but the Service members of the committee objected.

Roberts Will Serve

At Gausmann's invitation, Prof. Henry G. Roberts, of the Public Speaking Department, consented to serve as the fifth member. The members of the committee as it now stands are Gausmann, Prof. Roberts, Layton MacNichol, Miss Betsy Yates, and Winfield Rankin.

The original plans made by the Advocate called for identification at the polls according to lists which were to come from the Registrar's office. Since the lists could not be secured, it will be necessary to again have identification by means of activity books, as last year. Opposition to this system was based on the fact that it cuts down the total number of votes.

"Strike Against War" Endorses Ludlow Bill

40 UNIVERSITY STUDENTS in a "Strike against War and Fascism," Thursday adopted resolutions endorsing mandatory neutrality and the Ludlow referendum amendment.

The local meeting, which was held at the Union Methodist Church, was part of a national movement that brought out 250,000 students all over the country, according to an estimate made by the local strike committee.

Organized opposition to the strike was conducted by the University's Magna Carta Club, which condemned the spirit of the strike and lauded the policies of the government regarding defense and foreign affairs.

The gathering adopted another resolution expressing solidarity with colonial peoples resisting imperialism. In addition, the group demanded a plebiscite of the Puerto Rican people on the subject of independence.

The students of Manchester (Ind.) College varied their Strike Day program from the more prevalent oratory. They put on a broadcast, purportedly from Europe, in which Europe had gone to war and the United States had just declared war on Germany and Italy.

Greek Orders Hold Many Traditional Dances This Week

• DESPITE THE SCHOOL ELECTIONS which will take so much of the time of so many people at school this week-end, fraternity brothers and sorority sisters still have time to put on some of the bigger and much-awaited affairs of the year.

Two of the most outstanding of the traditional events of the school will take place in the near future. Sigma Chi will hold their annual Greenwich Village party at Indian Springs Country Club Saturday night. Kappa Sig will hold their Jungle Ball at the House May 6.

Tau Sigma Rho will do their share in the entertainment of the week with a Spring Formal at the Washington Golf and Country Club May 12. The Tau Sigs entertained members of A. D. P. with a dance and buffet supper Sunday night.

Kappa Sigma entertained the Chi Omega Sorority with a tea dance at the House Sunday. They will entertain the A. D. Pis with a dinner also at the House Monday night.

Sigma Chi will entertain the East Province Convention at the House this week-end. The national secretary of Theta Delta Chi, Norman Hackett, will visit the Theta Delta chapter this week. The T. D. X.s also announce that Chris Busick has been elected president of the chapter.

Kappa Alpha held a tea dance at the House Sunday. The former president of K. A., Richard Cox, will lecture to the Sailing Club Thursday.

Tau Kappa Epsilon elected the following officers Wednesday: Don Rush, president; John Rothrock, vice president; Bill Green, treasurer; Howard Goodrich, secretary; Perrin Kent, hegemon; Walter Sanders, tylorites; Neal Tomey, historian; and Charles Lamson, hytolytes. The annual spring formal will be held May 3rd at the National Women's Country Club. There will be a radio dance at the House next Saturday.

The Sig Eps held a picnic Saturday night in Virginia. They also held an exchange dinner with Sigma Kappa last night. Haywood Davis won the Clifford B. Scott Memorial award for having the highest scholastic average in the D. C. Alpha chapter.

Chi Omega held a mothers luncheon at the sorority house yesterday. Kappa Delta entertained with a silver tea Sunday at the Kenwood home of Mrs. Verne Rowe, an alumna member of the chapter.

The Gamma Province Convention

of Pi Beta Phi will be held here next week-end. Six of the girls visiting the convention, will stay at Strong Hall. Functions that have been planned for the visiting girls include a banquet and dance Saturday at the Washington Hotel, and an open house Sunday.

Delta Zeta announce the following elections: Helen McNeil, president; Phyllis Barnes, vice president; Barbara Hodge, treasurer; Gretchen Sperry, secretary; Mary Margaret Mayer, corresponding secretary; and Dorothy Hiett, historian. Patrons and patronesses include Dr. and Mrs. Pepper, Dr. and Mrs. Ames and Dr. and Mrs. Owens.

The pledges of Sigma Kappa announce the following officers: President, Paula Zepel; vice president, Bea Skinner, and secretary-treasurer, Jane Hampton. Sigma Kappa will have a weenie roast Saturday evening.

Phi Alpha elected the following officers Sunday: Herbert B. Lewis, president; Joseph Kolker, vice president; Stanley Lavine, secretary; Allan Sures, treasurer; Dave Rubenstein, sergeant-at-arms, and Don Peikin, historian. The pledges of Phi Alpha, Herbert Haft, Bob Rosenfeld, Joel Liebling, Dave Gordon, and Irv Solomon entertained the active chapter with a party at the House Saturday.

The Zeta Chapter of T. A. O., in conjunction with the Epsilon Chapter of Georgetown University, held a do-not-dunking jitterbug party at the Hayloft Saturday. The following officers, who were recently elected, will be inducted at a formal dinner-dance to be given at the Shoreham Hotel May 6th: Merton Gertler, chancellor; Mike Bruck, vice-chancellor; Paul Bugay, corresponding scribe; Ray Litowitz, corresponding scribe; and Morty Ransky, comptroller.

Tomahawked

WITH ONIONS

• ACCORDING to the "Daily Tar Heel", the cleverest statement made after the University of North Carolina campus elections came from Walter Kleeman, one of the defeated candidates. He said:

"The mills of the Gods have ground, and I'm a hamburger."

One of the "Tar Heel's" columnists went on to give a little advice which may well be passed on to our aspiring politicians:

"Keep out of politics, and if you want to run for anything, run after a woman."

We will reserve comment.

WHY CAN'T WE?

• (ACP) A MOVE is being made to christen the Drake University stadium, in Des Moines, Iowa, the "Cori Bowl".

Next thing you know, we'll be having a G. W. "Cherry Blossom Bowl".

JUST IMAGINE!

• 16 MEMBERS of the Lehigh "Brown & White" staff edited one edition of their local daily paper, the Allentown "Morning Call", last week.

Just imagine The Hatchet staff putting out the "Washington Post"!

EVERYBODY HAPPY?

• IN RELATING the libretto of Verdi's "Il Trovatore", before a student presentation of the opera, the Scranton "Aquinas" concluded the review with the following:

"Leonora dies in the meantime, and everybody is happy, because they are all dead."

Well, I guess we can be happy, too.

SIGNIFICANT DETAIL

• (ACP) UNDER ordinary conditions, your hands and arms contain about 2,000,000 micro-organisms, according to a Johns Hopkins University professor.

One might say we have our hands full, under ordinary conditions.

WELL, WELL, NOTE

• DOWN AT FURMAN University, they are planning a William Tell pageant. One of the students wants to play the part of the apple. He said:

"I like the part. I'll be half shot at sunrise."

With an arrow?

Riding Club Plans Annual Horseshow

• THE RIDING CLUB is busy with plans for their annual horseshow, which will be held May 6 at 2 p.m. at the Meadowbrook Showgrounds.

The show will include jumping and horsemanship classes for University students alone and for everyone. There will also be a sorority and fraternity class.

Several meetings have been held in preparation for the show, and one will be held tonight at the home of Catherine Stewart at 8 p.m.

Entries for the show will be taken by Catherine Stewart (WO 6948) and by Roger Power at the Student Club. The entry fee is 50 cents for University students and \$1 for outsiders.

Honorary Group Taps 15 Girls

• DELPHI, honorary intersorority organization, held its annual tapping ceremonies at the Panhellenic Prom Friday night.

Jessie Gardner and Anne Thomas of Alpha Delta Pi, Lucy Tate of Alpha Delta Theta, Dorothy Hiett and Helen McNeil of Delta Zeta, Virginia Birkby and Rae Neal of Kappa Delta, Margaret Bread and Carolyn Wadden of Kappa Kappa Gamma, Kay Bowen and Alice Miller of Phi Mu, Anne Joyce David of Pi Beta Phi, Sue Burnett and Hazel Smallwood of Sigma Kappa, and Virginia Moore of Zeta Tau Alpha were tapped.

Initiation and banquet will be held tonight at 2108 16th Street at 7 p.m.

Orchisis Elects Lucie Petta President

• LUCIE PETTA was elected president of Orchisis at a meeting Friday.

Other officers chosen were: Jerry Rosey, vice president; Martha Green, secretary; and Ethel Hoffman, treasurer.

Both Miss Petta and Mr. Rosey have been outstanding in the productions of Orchisis this past year. Mr. Rosey both dancing and accompanying. Both are also studying on scholarships at the Evelyn Davis School of Dance.

Miss Green and Miss Hoffman have worked on the production of Orchisis, in addition to dancing with the group.

B. S. U. Entertains Foreign Students

• THE BAPTIST Student Union will hold its annual foreign student banquet at the Calvary Baptist Church at 7 p. m. Friday. Dr. Raymond J. Seeger of the University will be the principal speaker.

All members of the organization will bring a foreign student to the banquet.

Cryptic Comments

(Continued from Page 2)

breakfast . . . a quart of whiskey, a beef steak and a bull dog . . . What's the bull dog for? . . . to eat the beef steak.

A straw vote on the best dancer in school reveals that Eleanor Sherburne leads by a margin on the first ballot, with Betty Stevenson, Margaret Wyvill, Virginia Riddle, and Betty Hartung close to the top. What's the consensus? We'll give another report next week. And what about the outstanding male as to personality and charm? They seem to miss out on the selections at the big dances. Lots of queens, are there no kings?

Heard that Roy Collins and the KDelightful Eleanor Beachy were about to break up . . . For a new high in good publicity, the signs that Swane and Joe Bob Gale have out for the Buff and Blue room this week. . . A Phisig in Esquire clothes thinks Betty Vedder is the campus high in charm and personality.

Here's to the land we love, and vice versa.

Dancer

• VIRGINIA BARRY, who will do several tap and tango numbers at the Buff and Blue Room which will be held next Friday night in the Student Club.

Sorority Girls Model At Panhel

• 'MID SWIRLING lights and tunes from George Hall's delightful orchestra, sorority girls danced in the most fashionable gowns of the year last Friday night.

In the Grand March we saw Virginia Birkby, president of the Panhellenic Council, attired in a lovely orchid chiffon dress made with a full skirt and draped bodice. The other leader of the march, Jane Reese, social chairman of the Council, was lovely in a flowered chiffon dress which featured a full skirt and a heart-shaped bodice.

Participating in the Grand March were Jane Coulter, wearing a chartreuse chiffon dress featuring a pleated bodice, full skirt, and a dramatic cape, Alice Bailey in dull white lingerie crepe gown with a marquisette strapless top, Marie McNeese in one of the new gypsy gowns with embroidered organdy bodice and Scotch plaid skirt, Carolyn Watson, president of Delphi, in a Tahiti printed satin with black satin outlining the neckline, Barbara Hanford in pale blue draped chiffon, Virginia Moore in pleated black crepe, Grecian modeled, and halter neck, and Mary Shonk in chartreuse organdy with circular inserts of black chintilly lace.

Virginia Tehas selected a crepe gown featuring a candy striped sash and a full red skirt. Betsy Yates looked lovely in a white chintilly lace dress made with a very full skirt and tight bodice.

Delphi tappers Anne Thomas and Sue Burnett looked very charming.

Glee Club Will Sing At Concert

• THE ENTIRE Glee Club, which consists of 90 people, will sing at the 12th annual Spring Concert at the Willard Hotel May 11. Brusiloff's Concert Orchestra will accompany the group.

Members of the Glee Club which is considered by many as one of the best choral groups in the country are: Clis Allen, Louisa Coll, Emily Bayley, Betty Kossow, Rosalind Lovell, Peggy Klechka, Ellen Nesom, Jane Smith, Frances Campbell, Betty Musson, Sue Preston, Marjorie Wilkins, Mary Pearson, first sopranos.

Second sopranos are: Mary Jane Backenstoss, Barbara Hodge, Anna Molster, Amy Heilman, Elsie Fisher, Doris Konkin, Rosamond Griggs, Persis Marti, Margaret Copeland, Tahmineh Irani, Idalene Dresser, Mary Martin.

First altos: Jane Coulter, Katherine Baart, Marion Fowler, Eleanor Garner, Virginia Dawson, Betty Whipple, Jacqueline Scott, Jean Yocum, Anne Dunbar, Alice Fracker, Mary Shonk.

Second altos: Sue Burnett, Marcia Crocker, Helen Marie Holm, Janice Norton, Marion Coblent, Charlene Dailey, Ruth Darby, Louise Dyer, Helen Hoyem, Estelle Gates, Pauline Eshelman, Muriel Schatz, Jean Duke.

First tenors: Jack Embry, Dan Harrison, William Knapp, Eleanor McCarthy, Joseph Moss, Don Rush, Jack Arntson.

Second tenors: Al Powers, Bill Powers, Randy Gardner, Robert Geran, Seruch Kimble, Vance Sheltell, William Zeller, John Rogers, Grant Sherck, Hugh Horton, Joseph Sherfy, Chris Bromberg.

First bass: George Croft, John Metz, James Hall, Iverson Hutton, John Wolf, Harry Brogren, Dick Simmers, Joe Newlin, Ardeshein Irani, Robert Randall.

Second bass: Allan Coleman, Stanton Russell, Allan Swayze, Paul Von Hemart, Ralph Jacobson, Charles McVickers, Evert Warren, Hollis Kannenburg, Jack Dorsey, Art Coffman, Hugh Allen.

Dancing will follow the concert.

Leon Brusiloff's Mad Masters furnishing the music.

Tickets are placed at one dollar per person, and may be purchased from any member of the Glee Club or from the cashier's office.

Anne in a full-skirted flowered chiffon with a white background and Sue in a blue net made with a full skirt and tucked bodice.

Department Holds Fourth Spring Lunch

• THE FOURTH annual Spring luncheon given by the Home Economics Department of the University will be held Saturday at 1:30 at the Young Women's Christian Association.

Sponsored by Alpha Pi-Epsilon, the luncheon will be open to all students interested in home economics. Miss Alice Webster, manager of the Woodward and Lothrop's tea room will be guest speaker.

Around tables decorated with May baskets and trimmings, will be students and members of the faculty, and special guests. Miss Helen Marie Dyer, professor of Biochemistry in the Medical School; Mrs. Joshua Evans, of the Board of Trustees; Mrs. Henry Alvah Strong, of the Board of Trustees; Mrs. Cloyd Heck Marvin, wife of the President of the University; Mrs. James Harold Fox, wife of Dean Fox; Mrs. Henry Grattan Doyle, wife of Dean Doyle; and Miss Myra Sedgwick, secretary to President Marvin, will be guests of the Home Economics Department.

Two girls from each local high school who have shown aptitude in the field of home economics will be invited to meet the University's staff and students who are working in this division.

Tickets for the luncheon are 85 cents and can be obtained from the Home Economics office.

To see the importance of home economics behind the scenes, the University department went to the McCullum Laboratories, and the Johns Hopkins Hospital in Baltimore last week. About fifty girls went from the University and traveled in a bus around Baltimore to inspect various places of interest.

Sight And Sound

(Continued from Page 2)

and you may accept all of it. It IS vital and gripping. It DOES tear at the heart strings. IT IS a great motion picture.

Everyone connected with this mighty enterprise has done superb work. Hecht and McArthur have transferred Miss Bronte's book in perfect rapport with the original's spirit and almost to the letter. The photography is an achievement in itself.

Let the public beware. Also let the public hock its last pair of shoes and make its way to the Palace and see "Wuthering Heights." And as for love; it is greater, gentlemen, than you think.

Women's Sports Calendar Lists Tournaments

• PLANS for the Spring activities in women's sports are gradually formulating, with a variety of meets and tournaments scheduled for each sport.

A women's doubles tournament and an invitation meet are marked up on the spring calendar for tennis. The women's doubles will be held Saturday and Sunday at 1 p.m. American University, Wilson Teachers College, and the University of Maryland have been invited to send representatives to compete with our tennis players in an Invitation Tennis Meet May 20 at the Sidwell Friends School at 1 p.m. A picnic supper will follow at 5:30 p.m.

The annual handicap tournament, to be held May 6 and 7 at 1 p.m. is the golf addition to the spring calendar. The handicaps will be based on 18 holes of play Saturday, and the final round will be played off Sunday. The meet will be held at the National Women's Country Club.

The archery manager is planning a telegraphic match with other colleges and a columbian round to determine which eight University girls will shoot in it. This is the first time that another sport than rifle has participated in an intercollegiate match. The highest score in this match will decide the winner of the University competition.

A varied meet is also scheduled to conclude the canoeing season. The spring sport managers are: Madeline Matchett, tennis; Pat Wehr, golf; Nancy Whittemore, swimming; Hazel Smallwood, archery; Norma Hatfield, riding; and Ruth Darby, canoeing.

Pi Delta Epsilon Starts Novelty

• THE FEMININE section of the school population will come into its own May 5, when Pi Delta Epsilon, honorary journalism fraternity, sponsors a "Sadie Hawkins Dance," the first affair of this type ever held on campus.

The dance will immediately follow the Cue and Curtain production, "Winterset." It will start about 10 p.m., and continue until 12:30 a.m.

"Sadie Hawkins Days" have been held on many campuses, such as Columbia University, and Washington State and are often disguised under such names as "Leap Year Parties" or "Spinster Parties."

Following the comic strip idea, girls will do all the inviting and will also buy any refreshments desired at the student club counter. Also contrary to tradition, girls will do all the cutting at the dance.

No boy stags will be allowed but every girl in the University is invited—stag or drag. The girl members of Pi Delta Epsilon will arrive stag.

Admission price for the dance is ten cents—the price of two coca-colas.

Mathematics Club Meets

• THE MATHEMATICS CLUB will hold a meeting tonight at 8:15 in D-200. Mrs. H. K. Kless will speak on "Computing Orbits."

For Smoking Pleasure at its best...

Let up—Light up a Camel...

the cigarette of COSTLIER TOBACCOS

Right from the first puff, smokers find Camels so much milder... so appealingly delicate in flavor... in other words, America's favorite cigarette...

And every Camel, in every pack, has the same charm for your taste. You can always depend on Camel's costlier tobaccos for the peak of smoking pleasure!

• WHAT DO SPORT EDITORS do when they haven't anything to write about? Any suggestions about anything is welcome, but so far, they all are about something that has gutted this column since its birth some time ago. Someone suggested that I go through the mail, but after diligently looking through my basket, I sadly discover that there is no mail.

Recheck, there is some mail—a release from North Dakota University about their spring football practice. I know they are not on our schedule next year, but I'm checking that right now (still have several inches to pound out for this column), but still we haven't got them on our future's book.

There are a few old assignment sheets around that should have been tossed out. And they are still a problem, too. None of my sports reporters read it when it comes up on the bulletin board, and when there is none to read, they all ask me why one hasn't been tacked up. You can't win. Wotta life!

You Can't Beat This Performance

Maybe a glance through this week's copy will be some inspiration. "Holmes hurls second no-hitter," one story reveals. Whether that is "Vander Meer feat" or not is something of a question. Greek baseball players are still as much of a sucker for a curve or a bad ball outside as they ever were, and if you want to be convinced, just come out to the Ellipse early some Sunday morning. As far as can be ascertained, there were no home runs Sunday in that league, but there were plenty of strikeouts. Holmes only whiffed 16 men in seven innings—16 personally taken care of via that route out of a possible 21 put-outs. No-hum, not much work for the rest of the team in the field. Right credible performance, too, when you realize that it's the second straight no-hit blank that Holmes has pitched recently. Pagine Joe Cambria.

Girls, Don't Miss the Saddle Hawkins Dance!

At last, we pop up with something interesting (that is if you have bothered to read this far). Saddle Hawkins dance in the Student Club on May 5th. Bargain rates too—only a thin dime per couple. Few catches too, the girl must invite the boy to come, pay the terrific war tax for admission, and do all the cutting. A tip to the boys who want to be invited (and incidentally girls here's your chance to invite out that football or basketball hero that you have been silently admiring from a distance all this time) just mention it to the O. & O., smile coyly, and say, "Who are you taking, honey?" and await further developments. If nothing happens, you're definitely in the wall flower state, but if you do come, you will be guaranteed a good time. Don't miss it.

A hasty glance at the back copy reveals that we have just about reached the limit of your patience, and we don't believe (say what is this we business, anyhow) in killing a good thing. Come back next week, we can't do worse.

Buff Handball Team Blanks Virginia 6-0

• WINNING its third straight match by a shutout, the Colonial Intramural handball team defeated the University of Virginia last Saturday on the local Y. M. C. A. courts, by the score of 6-0. The Cavaliers will be engaged in a return match next Saturday, when the Buff journey to Charlottesville.

The Colonials had a much more difficult time beating the Virginians than the top-sided score indicates. Three games were necessitated in four of the six matches, before a final decision could be reached.

Matches Hard-Fought

After dropping the first game, Walter Engelhardt, G. W. No. 1 player, rallied sharply to defeat Finklestein of Virginia, 20-21, 21-10. Charles Engelhardt, playing in No. 2 position, was also forced to three games before downing Bill Dickinson, 14-21, 21-8, 21-14. Charles Walden turned in the third victory, winning over Cap Bork of the Cavaliers, by the score of 21-19, 21-18, followed by a hard-fought 20-21, 21-20, 21-14 victory of Murray Collins over Norman Davis.

New Conference Planned

In an effort to raise the sport of handball from its present low state as an intramural sport, Coach Bernie Phillips has plans on the fire to incorporate the Universities of Maryland, Georgetown, Pennsylvania, Johns Hopkins, Virginia, and George Washington into an Eastern Atlantic Intercollegiate Handball Conference. If these plans go through, as it is expected that they will, the universities represented in the conference will give recognition to handball as a full-fledged minor sport, with the players eligible to receive their letters in that sport.

Foreign Service Group Will Hear Talk Tomorrow

• JAMES C. SAPPINGTON, chief of the Latin American section in the State Department, will address the Delta Phi Epsilon foreign service fraternity, on "Economic Conditions of Argentina and Uruguay," at its meeting in Columbian House tomorrow at 8 p.m.

Having just returned from a trip through South America, Sappington will give his unofficial impressions of the conditions prevalent in these two countries.

Arthur W. Buschman and William D. Waldrop were formally pledged last week.

Hutton Tells of Benes Talk Before Czechoslovakia Fell

• FORMER President Edward Benes of Czechoslovakia, now a lecturer of the University of Chicago, did not suspect the impending seizure of Europe's 20-year-old democracy as late as a month before it was taken, Graham Hutton indicated today.

This was revealed to a Hatchet interviewer in a hitherto unpublished statement that was made by the deposed president last summer. When Mr. Hutton's class tonight, visited Mr. Benes at his palace in Prague, the latter told Mr. Hutton two things:

"Keep a Good Nerve"
"Young men of your age in England," Mr. Benes said, "should above all keep a good nerve, for you will need it during the next twenty-five years."
"Instead of going with the rest of the nations in thinking of the next war, you should be thinking of the next peace."
The Czechoslovakia president, in

Netters Face Two Strong Opponents

• THE VARSITY tennis team remained idle during the past week as scheduled matches with Temple and St. Joseph's were cancelled because of wet grounds at Philadelphia. However, Gil Hunt's promising players swing into action again on Thursday afternoon against Pittsburgh at the Columbia Country Club courts. Sunday afternoon the squad will play the Argyle Country Club team at the latter's home courts.

Three other matches still remain on the Colonial schedule, with Wake Forest here on May 4, Colgate on the 5th, and Georgetown on the 11th. The postponed matches on May 11. The postponed matches will be played if suitable dates can be arranged with Temple and St. Joseph's.

The team has been fortunate enough to be able to practice on the Federal Reserve Board courts between 20th and 21st Streets, just off Constitution Avenue. They practice there from 1:30-3:30 on Monday, Wednesday and Friday afternoon.

Dave Johnson, ranking District junior tennis player, faces the task of keeping his unbeaten record clean against the strong Pittsburgh netters on Thursday. He is the only player on the squad who has not been beaten in their first three matches. The other players on the squad are: Bus Fleming, Elwood Davis, Bernie Blankin, Henry Melola and Bob Faris.

Engineer Grads Meet Tonight

• THE ENGINEER Alumni Association of the University will hold its annual meeting tonight at 7 p.m. at the Hotel Benedict, 1808 Eye St., N.W.

Martin A. Mason, a graduate of the School of Engineering of the University and a member of the staff of the National Bureau of Standards, will describe conditions in Europe as he saw them on a fourteen months' tour studying under the Freeman Scholarship of the American Society of Mechanical Engineers, from which he has just returned.

J. Edgar Hoover, Chief of the Federal Bureau of Investigation and an alumnus of the University, has designated E. P. Coffey of the Bureau's technical laboratory to speak on the subject "Science in Crime Detection," illustrated by sound motion pictures, and to display a special film entitled "You Can't Get Away With It."

A short business meeting will be held and election of officers for next year will take place. Edwin A. Schmitt, retiring President of the Association, will preside.

Miss Tarbull Edits Guide On Lacrosse

• MISS JENNY E. Tarbull, of the women's physical education department, has just had published an official Lacrosse Guide, of which she was editor.

Chairman of the subcommittee on Lacrosse for the National Section of Women's Athletics, Miss Tarbull and her committee had the task of drawing up the official rules for this sport, as well as articles on techniques, teaching, and organization of the game.

She and her committee, which is spread throughout the country, also responsible for the furthering of the sport by means of demonstration matches and lectures.

The Guide as published contains a section on the care of the equipment, an article for beginners, suggestions for positions, and questions and answers.

Hatchet Sports

April 25, 1939

THE UNIVERSITY HATCHET

Page Five

Holmes Repeats No-Hitter; Blanks S.P.E. 11-0; Sigma Chi, Phi Sig Leads Leagues

• SIGMA CHI'S STAR TWIRLER, Wendell "Hutch" Holmes repeated his no-hit, no-run performance last Sunday by blanking S. P. E. 11-0. The Sigma Chi team made 9 hits, but with the help of several errors and walks on the part of the Sig Eps, managed to chalk up the winning tallies.

Mike Murray started on the mound for the losers allowing four hits and striking out seven batters in four innings. George Croft then took over the pitching assignment and gave up five hits while fanning four men. Holmes for the winners struck out a total of 16 batters. Walks were: Holmes, 3; Murray, 4; Croft, 0.

Phi Sig Swamp T.K.E.

In League A, Phi Sigma Kappa took the lead by trouncing T.K.E. by a score of 19-3. Pitchers for the winners were Roy Collins and Biff Borden while Bill Green and Don Rush handled that assignment for the losers. S.A.E. won over Sigma Nu, scoring seven runs to one for their opponents. Frank McGinnis and Leon Morris pitched for S.A.E. against Frank Mann and Don Jackson of the Sigma Nu nine. McGinnis, who also hurled for the freshman team, pitched hitless ball during the four innings he worked.

The outcome of the other game scheduled in League A has not been definitely decided. The Delta Tau Delta team allows that their men were on the diamond but did not have a permit for same. On the other side of the fence the Theta Deltis insist that the diamond was there but that the Deltis were not. Outcome of this bit of byplay will probably be decided by Vic Sampson, activities chairman of the interfraternity council.

Tau Sigma Nose Out Kappa Sigma

Tau Sigma Rho is leading League B along with Sigma Chi. The Tau Sigma took Kappa Sigma by a score of 9-8 in the closest contest of the day. Vic Sampson and Bud Pappert were the twirlers for victor and vanquished respectively. Acacia forfeited to Kappa Alpha to complete the schedule. Following are the standings in the two leagues:

League A	W	L	League B	W	L
P.S.K.	2	0	S.X.	2	0
S.A.E.	2	0	K.A.	1	0
T.K.E.	0	1	S.P.E.	1	2
S.N.	0	1	S.P.E.	1	2
T.D.D.	2	1	Acacia	0	3

Next week's games are: P.S.K. vs. T.D.D.; S.A.E. vs. T.K.E.; S.N. vs. T.K.E.; League B: S.P.E. vs. K.A.; S.X. vs. Acacia; S.P.E. vs. K.S.

Football Stars Enter Hospital; Surgeon's Knife Heavily Used

• THE PARADE of Colonial athletes to the University Hospital for the removal of an appendix, tonsils, etc., slackened down a bit over the week-end, but appendicitis attacks may force Bob Faris and Murphy Booth, football stars, to go under the knife in the near future. Booth was sent to Dr. Castell, University physician, last Friday for diagnosis, after he had complained of pains in the abdominal region.

Bob Novaskey, All-American football prospect, is rapidly recovering from the loss of his appendix last Tuesday, and is expected to be released from the hospital some time this week. He was preceded by Arnold "Reds" Auerbach, basketball star, who had his appendix eliminated shortly after the Easter holidays.

Three other football players also had parts of their anatomy cut away by the surgeon's knife within the last two weeks. Ken Batson, Walter Wele and Babe Nugent had their tonsils out. A close check is being kept on the Varsity House for any further developments.

Beg Your Pardon

• THE SPORTS EDITOR apologizes for the story that appeared in the last issue of The Hatchet which said that track would be established as a major sport here next year. All the downtown papers reprinted the story from The Hatchet without checking on its accuracy, with the result that Max Farrington, Athletic Director, denied the statement a few days later.

"I would like to have track here very much next year," he said, "but it is a physical impossibility for the University to have it until we have the proper facilities, that is, a track to run on." However, Farrington eventually hopes to have four major sports here, mainly, varsity baseball, basketball, football and track.

Golf will be established as a minor sport here next year, Farrington added. Although the University has a golf team now it is only rated as an extramural sport.

Miss Tarbull Edits Guide On Lacrosse

• MISS JENNY E. Tarbull, of the women's physical education department, has just had published an official Lacrosse Guide, of which she was editor.

Chairman of the subcommittee on Lacrosse for the National Section of Women's Athletics, Miss Tarbull and her committee had the task of drawing up the official rules for this sport, as well as articles on techniques, teaching, and organization of the game.

She and her committee, which is spread throughout the country, also responsible for the furthering of the sport by means of demonstration matches and lectures.

Johns Hopkins Frosh Schedule Heavy; Loses; G W Golfers Win

• THE COLONIAL golf team won their first match of the season last Saturday afternoon, defeating Johns Hopkins University 11½ to ½. The matches were played at the Washington Country Club links. Tomorrow afternoon the Colonials travel to Westminster, Md., to play the Western Maryland Terrers.

In trimming the Bluejays, the Colonial linksmen won three out of four singles matches, won both of the best-ball matches, and both Colonial two-man teams shot lower totals than their opponents, to win all but the one singles match.

Having shown marked improvement with its first victory, and the previous effort being a tie with Maryland, the Buff golfers are confident of making a good showing against the Terrers.

The four top-flight golfers on the University team are: Lyle Franklin, Myron Madson, Al Birmingham and Carl Betsch.

Intramural Tourneys Reach Second Round

• SECOND ROUND play will start tomorrow in the intramural badminton and horseshoes tournament. Vinnie DeAngelis announced, and all first round matches must be played off as soon as possible. Entrants are asked to look at the schedule posted on the bulletin board of the Student Club to see what hours the gym is free to use for badminton matches.

Horseshoes can be obtained from the Student Club counter and the courts have been set up in back of the new hall of Government. First and second round pairings are also posted on the bulletin board for both badminton and horseshoes.

• COACH ED MORRIS' pitching staff is scheduled for plenty of work during the coming week as the Colonial yearling face the ambitious job of playing five games in six days. Yesterday the freshman played the strong 7-Up nine and today are faced with a return match at 4:45 p.m. with the strong Heurich Brewer team, who are out to even up for an earlier loss at the hands of the Buff.

After a lay-off tomorrow the freshmen play Eastern High on the latter's home field Thursday at 3:30 p.m. and meet Roosevelt High the following afternoon at 3:30 on the Rough Riders' home diamond. The busy schedule ends with a game against Devitt Prep on the East Ellipse diamond at 2:45 in the afternoon.

Rain and bad weather forced the cancelling of some of the games early this week, but the Buff frosh extended their winning streak to three straight before it was snapped by O'Donnell's Grill Saturday afternoon on the Monument Lot diamond.

The Colonials blanked Western 4-0 for their second straight, and added Tech High to the string by out-slugging them 9-7. In the game with O'Donnell's Grill, the Colonials held a 5-3 edge at the first of the ninth, but O'Donnell's managed to score three runs to put them ahead 6-5, which remained the final score as the Buff sluggers were handcuffed in the last half of the ninth.

Brewers Seek Revenge

The Buff players will be crossing bats with the Brewers today for the second time this season, for a week ago last Saturday, the "colts" boys took them over the hurdles to the tune of 5-3. With high hopes of revenge this upset, the Heurich nine will place a formidable aggregation on the field, headed by either Archie Scrivener, former G. W. star, or Eddie James, on the mound. Joe Sullivan, ex-Eastern great, will be at first and Fee Collier behind the plate.

Scrivener, who had a tryout with the Senators a few years ago, has a fast ball upon which he relies considerably, while James' main repertoire consists of a slow curve, Sullivan and Collier are the Brewers' heavy sluggers.

In running up against Eastern, the Buff yearlings should experience little difficulty, but will find

three good ball players in Les Cooksey and "Sluggo" League, outfielders; and "Puddin'" LoLvet, pitcher, who hurls a neat smoke ball and a sharp-breaking curve.

Roosevelt Serious Threat

The Roosevelt Rough Riders will probably cause Coach Morris' proteges a bit more trouble. Eddie Vermillion, curve ball pitcher, or "Babe" Melkeljohn, a good fast ball shooter, may make the visitors a little hit-hungry. Jimmy and Billy Robertson, infielders, Danny Booth, outfielder, and Hymie Perlo, catcher, are all good hitters and may give the Colonial moundsmen plenty of grief. Perlo is considered one of the best backstops in the District.

The Colonial frosh already have a 8-1 five-inning practice game victory over Devitt Prep, and unless Devitt unearths a star pitcher somewhere, the freshmen should have little difficulty in driving in plenty of runs. Johnny Stevens, former all-high player at Western, is their most dangerous hitter, and about the only heavy slugger on the Devitt squad.

THE SATURDAY EVENING POST

Summer School Offers Marine Engineering

• DR. A. F. JOHNSON, executive officer of the department of mechanical engineering of the university, will give an introductory course in naval architecture and marine engineering during the Summer Session.

The course will consist of lectures by Dr. Johnson, and trips to nearby shipyards.

Lectures and problems will cover construction and operation of modern seagoing steam and Diesel powered cargo and passenger vessels, based on detailed plans, specifications and performance data furnished by the United States Maritime Commission.

Items covered will include arrangements, lines, structure, machinery and equipment as affected by Government Law and Regulations, American Bureau of Shipping rules, Bureau of Marine Inspection and Navigation, economic factors, technical considerations, shipyard and operating practices.

Many See Exhibit Of Thoenen's Work

• OVER 100 PERSONS visited the Studio Gallery last week to see the work of Miss Mary Whitney Thoenen of the Art Department staff.

Miss Thoenen's lithographic sketches, oil painting, and egg-temperas attracted not only University students and staff members, but art critics from local newspapers and interested Washingtonians. One visitor signed the guest book as having residence in London, England.

This exhibition is now entering its last week and will be superceded next Monday by a show of recent paintings by University student artists which will last through the month of May.

On Second Thought

(Continued from Page 2)

to purchase any inestimable number of books, there is little reason to believe it could be successful.

Having harmonious relations between the various groups on the campus would be tantamount to having a national one-party system. If there were no representatives to criticize activities of the majority faction, the letter could go unchecked.

And who doesn't favor increased financial aid to Cue and Curtin? The question is, "How will increased financial aid be obtained?"

Almost everyone favors a student commons building. How will it come about? The platform does not say.

For the Service party to say it is in favor of more emphasis on educational forums is almost a joke. Look at the record this year. It speaks for itself. There have been no forums of note since that job was taken from Eugene Lerner.

Symphonic concerts! The party may be in favor of them, but it has, to my knowledge, never sponsored anything of this type.

The Service party rode into power on a "Free Blue Book Ticket" two years ago. If they are free, this writer confesses he has been gyped innumerable times and hereby demands a refund on purchases.

Yet we find free books written into this year's platform. Why doesn't the party chairman say how he intends to procure examinations books free of charge or at a reduced cost? These are things the voter should contemplate.

The "Independent" Side

George Pugh, in accepting the nomination as president by the Independent Voters' League, said:

"There are two positions which can be taken on student government. One position is that a small clique, be it independent or fraternal, should dominate our political system. Another system is that merit should be the basis for political actions without regard to any lines of social demarcations."

It might be that merit should be the basis for political actions, but it never has been generally regarded in that manner before by party members. It is safe to say that both sides will stay 99 per cent within party lines. All of those who have allied themselves behind Daugherty in the Service party will not vote for Pugh. On the other hand, those who have indicated by their actions they will support Pugh, are not likely to step outside the party and cast a ballot for Daugherty.

All of this, however, can easily take place within Pugh's statement on "merit" and neither side need suffer any qualms of conscience. For who is to say that each side did not vote "honestly" or what it considered "merit." It is significant, nonetheless, that thing called "merit" stays pretty well within party boundaries.

"I think (our action) deserves and will enlist the support of a large group of people who are sincere and willing to ignore party lines," Pugh said.

Is there any proof available that people will ignore party lines because they are sincere? None at all, but these words are flattering to the voter and obviously complement his intellect and ability in an effort to lure his vote.

Jovial, able politician Joe Cloroty, naturally went in for a bit of party propaganda himself. In one sentence he said, the fact that 2 independents are members of fraternities "bears out our oft-repeated policy that merit is the basis of our choices."

In the next sentence Cloroty says "our party is 100 per cent united behind each candidate." This does not jibe with Pugh's statement on selection or Cloroty's assertion on "merit."

All of this, we are told, is to be expected during elections. The device of glittering generalities is used often. Every voter ought to weigh what each side says. Some candidates have to be selected, but it will help each voter's thinking facilities if he will look carefully at what he reads and listen attentively to what he hears. He is more apt to get the facts on both sides.

"Enemy Aloft"

• ANTI-AIRCRAFT Machine-Gun Crew of the 260th CA (AA) caught in action by Lt. Paul M. Meyer, of the School of Engineering, during last summer's camp at Virginia Beach. In addition to these guns, the regiment is assigned three-inch anti-aircraft guns, searchlights, and 37-mm automatic guns.

Many University Men Staff Capital Air Defense Unit

• THIRTY OF THE 48 officers in the 260th Coast Artillery of the United States Army come from this University, it was revealed yesterday.

This National Guard unit which holds in its hands the defense of the nation's capital against enemy aircraft, was organized in 1915 by Captain Walter W. Burns of the University Law School at the suggestion of General Maxwell Woodhull, President of the University's Board of Trustees.

Burns, who is now a colonel, counts among his 48 officers, 30 George Washington alumni, faculty members and students. Many enlisted members are also University men.

The regiment is important in the defense of the nation's seaboard, since it mans the only anti-aircraft defense between Wilmington, Del., and Fort Monroe, Va. It has been issued, within the past few months, the world's finest and most modern anti-aircraft equipment.

Features of the regiment's training for the past several years have been its annual encampments near Virginia Beach, where the several batteries have participated in a varied program of field training,

including target practices fired at high-speed aerial targets.

The 260th draws its members largely from the ranks of federal employees, who are attracted by the training program, designed not to interfere with civilian positions and school work, and providing 15 days military leave with pay annually. Other attractions lie in the facts that all commissions are by competitive examination from the ranks; all uniforms and equipment are provided by the government; and the weekly hour-and-a-half drill period carries a minimum salary of one dollar per drill. Attendance at camp also is paid at the rate of one dollar to \$4.20 per day for enlisted men, with higher rates for officers.

While the primary purpose of the 260th is to provide a highly-trained and efficient anti-aircraft defense organization for Washington, plenty of time is found to devote to social and athletic programs.

The regiment extends to all Washingtonians, and particularly to University students, a cordial invitation to visit its quarters and inspect its facilities and equipment, or to watch its troops at work. Call Metropolitan 2836 between 8 and 10 on Tuesday and Thursday evenings for information.

Full Text Of Sheppard Larrabee Bill

(For Story See Page 1)

• COMPLETE TEXT of the bill introduced in the Senate by Senator Morris Sheppard and in the House by Congressman Larrabee. Hearings will be held in Room 249, Senate Office Building, Thursday at 10:30 a.m. by the Civil Service Subcommittee composed of Senators Neeley, Logan, and White.

SENATE 1610
H. R. 5320

To prevent discrimination against graduates of certain schools, and those acquiring their legal education in law offices, in the making of appointments to Government positions the qualifications for which include legal training or legal experience.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress Assembled, That in appointing, or fixing requirements with respect to the appointment of, persons to any position in the Government service, if the qualifications required of applicants for such position include legal training or legal experience, no officer or employee of any executive department, independent establishment or agency (including Government-owned shall discriminate against any applicant, or deny to any applicant the privilege of taking any competitive examination held for the purpose of determining the qualifications of applicants for such position, because such applicant (1) has not been graduated from a particular law school; (2) has not been graduated from a law school which is of a particular class or which has been approved or accredited by any association, organization, or group; or (3) has not had college training in addition to law-school training, or who acquired his legal education in a law office.

SEC. 2. No sums appropriated or allocated for the payment of salaries and expense accounts of officers and employees of the executive departments, independent establishments, and agencies of the United States shall be available to pay the salary or expense account of any such officer or employee who violates the first section of this Act.

Bibliography By Dr. Ragatz Is Published

• THE INTERNATIONAL Bibliography of the Historical Sciences for 1936, of which Dr. Lowell J. Ragatz of the University's history department is a collaborator, has just appeared.

The bibliography is a listing of books on all phases of history published during the year 1936. Because of the great amount of work necessary for compiling it on the part of the various collaborators and because it is an international project the volume always appears two years late.

The International Committee of the Historical Sciences has its headquarters at Zurich. The bibliography is edited by an international board headed by Pierre Caron and March Jaryc, the distinguished French bibliographers, with two collaborating scholars in each of many other countries.

The first volume appeared in 1926. From the beginning Dr. Ragatz has been one of the American contributors, covering all articles on non-American history published in the United States. The other collaborator for many years was Dr. W. S. Holte, formerly of the political science department of this University. Now the other American editor is Dr. Vernon G. Setser of the National Archives, formerly a teaching fellow in history at the University.

For many years the standard bibliography work in history was the Historische Zeitschrift, an international historical review published in Germany. This perished during the World War.

In 1924 Dr. J. Franklin Jameson, chief of the Manuscripts Division of the Library of Congress, editor of the American Historical Review, and dean of historiography in America, conceived the idea of an annual volume brought out under American financial support and international editorial cooperation. The project was supported by the American Historical Association and other similar national organizations.

The Laura Spellman Rockefeller Foundation subsequently agreed to underwrite the venture by an annual grant of \$10,000 for 20 years. The result was the bibliography, the eleventh annual volume of which has just appeared.

Yeager Heads Speaking Group

• PROF. E. HAYES YEAGER, head of the Public Speaking department, was elected president of the Eastern Public Speaking Conference, at last week's annual meeting at Syracuse University.

The Conference, oldest association of teachers of speech in the United States, will hold its thirty-first annual meeting in Washington next March.

Penn State Girls Debate Thursday

• SPEAKERS FROM Pennsylvania State College will oppose a University team composed of Evelyn Morris and Betty Green at 8:15 Thursday, in Columbian House for the only women's debate to be held on the campus this year.

The local team will argue the affirmative side of the question "Resolved that the United States should follow a policy of isolation toward all nations involved in international or civil conflict outside the Western Hemisphere."

Town House Pharmacy

WITH

Buff and Blue

• The dependable jeweler of the Greeks for many years, has been BALFOURS, 1319 F Street N.W., phone NA 1945 for information. Mr. Ford will gladly show you the G. W. class rings—you graduates will want to have one of these—just ask for Mr. Ford.

• Anne Coulter in the dog house for too much talk-talk and chatter-chatter in class?

• "We love 'em say the ladies—and they mean FLOWERS FROM THOMAS HENSON'S. In fact the ladies hinted that they would like to see more of them—so take the hint you gentlemen and treat your G.A.O. to a corsage or a boutonniere—you can't be wrong when you say it with flowers.

• Cap and a Kappa seen together, these spring days. Service note? exclamation mark.

• If it's atmosphere with your favorite date, the RAINBOW ROOM is the spot. A delightful drink here warm spring days is their favorite frozen Daquiris—TKE's make it their favorite haunt.

• Odd story going the rounds that a group of independents have selected a particular exclusive frat to join to beat Service should they lose to said machine—negotiations underway.

• We took a trip through the kitchen of the CANNED FOOD COFFEE SHOP, 1710 Eye St., Saturday afternoon. This confirmed our observation that our friends who run this delightful place keep it spic and span throughout. The excellence of the food is attested by the fact that around 650 people are served here every day.

• The Greeks have many female admirers at their ball games rostin' on the sidelines. Sunday mornings. Wonder if that is why the score is always so close?

• Try the WOODSHED, 18th and Penn. Ave. N.W. for that pick 'em up "cocke" before your 5 o'clock class. Beer also—direct from the keg. An honest-to-goodness fine grade of chocolate makes those thick milk shakes a specialty here. And don't forget, this is the place to go for that late snack after the Buff and Blue room Friday night.

Exeter Offers Foreign Students Special Courses

• IN THE BELIEF that colleges and universities provide an advantageous meeting ground for the youth of different nations, the University College of the South West of England, Exeter, is again extending an invitation to overseas students to enroll in one of their many special classes for foreign students.

The College, situated in the ancient cathedral city of Exeter, is closely allied with the strong traditions of English life and character, and is in the midst of the Devon coast and high moorlands made famous by song and story.

The Junior Year Abroad, which in the past has enlisted many American students, is a special feature at Exeter which has the approval and cooperation of many American universities.

The Institute of International Education, 2 West 45th Street, New York City, will be glad to send any information upon request.

Compton Reviews J. W. Madden's Law Case Book

• COLLABORATING with J. Warren Madden, Chairman of the National Labor Relations Board, Prof. William R. Compton, of the University Law School, is now rewriting Madden's casebook on Domestic Relations.

The NLRB chairman wrote his book several years ago and it is believed that his book is now used in the Domestic Relations course of most of the nation's law schools.

Included in the revised edition will be sections on breach of promise, marriage, divorce, separation, parent-children relations, infants, and husband-wife relations. A new topic, not included in the original edition, is a section on guardians and wards.

Prof. Compton has written several articles during the past few years. Several years ago, he wrote a digest on safe deposit custom, which is used extensively in New England banks.

Prof. Compton said that the book would probably be in the hands of the publishers by Autumn.

Commons Building and Student Life

(Continued from Page 2)

III

Social and Cultural Activity

Equally important is the social and cultural value of a more intense University life.

We live in a human society, and part of the mastery of life is the mastery of association with our community. The more we encourage such association, the more we encourage the full mastery of the art of life.

These associations will be greatly intensified in a student commons building. Organizations of all kinds will have convenient and well-equipped meeting rooms, centrally located where their activities will come to the attention of more students. The commons building will contain a ballroom, where University dances may be held. The net result, we believe, will be the development of a spirit such as students have reported in other schools, but which has lagged in this University.

Pictures in this issue, for example, show the commons at the University of Kentucky. There dances are given several times each month—open to the entire student body—and attended by almost the entire student body.

Incident to the entire plan will be a closer association of faculty and students, in an out-of-the-classroom atmosphere which will encourage friendliness, and exchange of thought and ideas.

IV

Your Vote—And Your Pocketbook

Late this month, you—as a voting student in our democratic University community—will have an opportunity to vote on the commons plan. We think you will want to cast a favorable ballot, for the reasons we have urged.

At any rate, we are definitely certain it is your duty to vote. The plan projected calls for an increase of \$2 in the University fee, which will cost you—each of you—\$4 a year. We think you'll be getting your money's worth—but that's for you to decide.

Consider all the arguments, and if you are finally convinced that this \$4 a year will help give you a bigger and better University—vote for the plan.

It's your money—and you who will be spending it for your University. There is a very direct connection here between your vote and your pocketbook.

It is your responsibility to vote for your convictions—or forever hold your peace.

— F. F. B.

ERROL FLYNN

OLIVIA de HAVILLAND

The RIGHT COMBINATION

SATISFIES MILLIONS

Chesterfield's Happy Combination (blend) of the finest American and Turkish tobaccos satisfies millions because it gives them smoking pleasure they get from no other cigarette. Refreshing mildness, better taste and more pleasing aroma are Chesterfield's feature attractions with smokers everywhere.

When you try them you will know why Chesterfields give millions of men and women more smoking pleasure... why THEY SATISFY

Chesterfield

of the world's best cigarette tobaccos, THEY'RE MILD... THEY TASTE BETTER
